INTRODUCTION

Dear colleagues,

Among phonosurgical procedures in patients with various lesions of the larynx, fiber-guided laser surgery has reached a high level and is nowadays even considered as first choice treatment for some benign mass lesions.

Our hands-on workshop will offer presentations on different lasers, from cutting fiber-routed lasers to most modern photoangiolytic lasers. We will show how lasers work, which potential they have and how we can address individual needs during an intervention in awake out-patient cases. Lectures are given by clinical experts, including demonstrations of different laser effects on tissues as well as video-presentations of typical cases. All participants will have the opportunity to learn several techniques ‘hands-on’ with laser glass fibers and train how laser settings will lead to a maximum benefit for the intervention in the office and in general anesthesia.

With more than 10 years of daily clinical experience using fiber-guided lasers, we would like to share this knowledge with our participants during the practical course and show how to perform these operations. A special focus will be on live case presentation, on explanation of tips & tricks as well as on pointing out pitfalls and of course learning from complications. We hope that this workshop will improve our attendees’ basic skills and knowledge for laser applications, while adapting these techniques for use in the office-based as well as in the general anesthesia setting. We welcome you in Hamburg and are looking forward to seeing you at our hands-on workshop.

Markus Hess, MD · Susanne Fleischer, MD · Frank Müller, Dipl.-Ing.

FIRST ANNOUNCEMENT
SATURDAY · NOVEMBER 24, 2018
8:30-18:00
HAMBURG · GERMANY

IN COOPERATION WITH:
WWW.STIMMKLINIK.DE

PROGRAM

Saturday · November 24, 2018

8:30 Registration
8:50 Welcome and introduction
9:00-9:30 Lecture: What we must know: Anesthesia and laser procedures
9:30-10:30 Lecture: The difference between cutting/ablative lasers (CO₂, Thulium, diode) and photoangiolytic lasers (KTP, PDL, Argon, Blue Laser)
10:30-11:00 coffee break
11:00-12:30 Hands-on Part I: Training on different fiber-guided lasers: Cutting/ablative lasers and photoangiolytic lasers
12:30–13:15 lunch break
13:30–14:00 Lecture: Tips and tricks in fiber-guided lasers: Office-based surgery
14:00–15:30 Live operation: Office-based surgery – live demonstration
15:30-16:00 coffee break
16:00-17:00 Hands-on Part II: Surgical training simulation with fiber-guided lasers
17:00-18:00 Lecture: Special cases – pitfalls – complications and discussion
18:00-18:30 General discussion, evaluation, certificates, closing remarks
19:00 Farewell dinner (included in conference fee)
- location will be posted (dress code: casual)
GENERAL INFORMATION

Organisation
Deutsche Stimmklinik Management GmbH

Location
DEUTSCHE STIMMKLINIK
(on the grounds of the UKE – University Medical Center Hamburg-Eppendorf)
Martinistraße 64 · 20251 Hamburg
+49 (0)40 5 13 13 007

Contact and Registration
